

Start of Constant Rated Thermal Power Operation at Ohi Unit No. 3

March 19, 2018
President and Director, Shigeki Iwane
The Kansai Electric Power Co., Inc.

We hereby announce that Ohi Unit No.3 has started constant rated thermal power operation at 21:43 today.

Taking this opportunity, I would like to express our sincere gratitude to members of the public, in particular local residents in the host communities, for kind understanding and cooperation toward the restart of the plant.

We will make a continuous effort to pursue safe and stable operation of Ohi Unit No.3 and, at the same time, make steady steps forward to restart Ohi Unit No.4 with giving top priority to safety while maintaining an atmosphere of tension involving each and every employee including all of our contractors. We would like to state again our strong resolve to strive unceasingly in pursuit of the nuclear safety.

We are committed to exerting every possible effort to gain more trust and understanding in the importance and safety of nuclear power generation from members of the public while making steady steps forward to achieve and maintain safe plant operation after restarting operation.
