Kepeco has reported on its safety improvement measures and other matters to resume operations at Units 3 and 4 to Fukui Prefecture and Takahama Town, and resumes operations at the said units today.

We would like to extend our sincere appreciation again to those in power station located areas and everyone who gave us great support.

As we resume operations at our Takahama Units 3 and 4, every single employee of Kepeco and its business partners will brace up once again, be strongly resolved and prepared to further improve safety incessantly as there will be no end to ensuring nuclear safety, and work carefully with a sense of tension while at the same time by giving top priority to safety.
