Company Representative: Shigeki Iwane, President and Director
Contact: Michiya Sakata, General Manager, Office of Accounting and Finance
Tel: +81-6-6441-8821

We hereby announce that Takahama Unit No.3 (pressurized water reactor, rated electric output: 870MW, rated thermal output: 2,660MW), which has been under the 22th periodic outage inspection since December 9, 2016, is expected to start up on June 6 and reach the criticality on June 7, 2017.

After reaching the criticality, the plant will start power control operation around June 9, 2017 as the final stage of the periodic outage inspection following various types of tests. In early July, the plant will restart full-scale operation after the completion of the comprehensive inspection performed by the Nuclear Regulation Authority.
