The Kansai Electric Power Co., Inc.

**Schedule of Ohi Unit No. 3 Reactor Startup and Power Control Operation**

The Kansai Electric Power Co., Inc. (Code: 9503)  
6-16 Nakanoshima 3-chome, Kita-ku, Osaka  
(URL <http://www.kepeco.co.jp>)  
Company Representative: Shigeki Iwane, President and Director  
Contact: Michiya Sakata, General Manager, Office of Accounting and Finance  
Tel: +81-6-6441-8821

We hereby announce that Ohi Unit No.3 (pressurized water reactor, rated electric output: 1,180MW, rated thermal output: 3,423MW), which has been under the 16<sup>th</sup> periodic outage inspection since September 2, 2013, is expected to start up on March 14 and reach the criticality on March 15, 2018.

After reaching the criticality, the plant will start power control operation on March 16, 2018 as the final stage of the periodic outage inspection following various types of tests. In early April, the plant will restart full-scale operation after the completion of the comprehensive inspection performed by the Nuclear Regulation Authority.

※The scheduled date and work plans of Ohi Unit No.3 restart may be subject to change according to the circumstances.
