Notice Regarding Tendering Shares in a Tender Offer for Own Shares by KINDEN CORPORATION and Expected Recording of Gain on Sale of Affiliate Shares

The Kansai Electric Power Company, Incorporated (“KEPCO”) and Kanden Realty & Development Co., Ltd. (“KRD”) hereby announce that KEPCO and KRD have today decided to tender a portion of the common shares of KINDEN CORPORATION (“KINDEN”) held by KEPCO and KRD in KINDEN’s tender offer for its own shares.

KEPCO and KINDEN are partners that share the mission of ensuring the safe and stable supply of electricity. Furthermore, amid the trend toward decarbonization and with an eye on the expected increase in electricity demand driven by digital transformation (DX) and artificial intelligence (AI), the two companies are collaborating on growth businesses such as the development and operation of data centers and BESS (battery energy storage systems) by leveraging the strengths of both companies.

On the basis that the existing collaborative relationship will be maintained, and from the perspective of enhancing capital efficiency through the optimization of the capital relationship between the two companies, KEPCO proposed to KINDEN the sale of a portion of the shares held through KINDEN’s tender offer for its own shares, and following discussions, the parties reached the decision announced today.

The KINDEN shares not subject to this tender offer will continue to be held. KEPCO will maintain close collaboration with KINDEN and, while fulfilling its responsibility to ensure the safe and stable

supply of electricity, will continue to grow together with KINDEN as its business partner.
