

Message from our executive officer in charge of ESG reports

Toyokazu Misono
Representative Executive Officer,
Vice President

The brand statement of our Group is “power with heart – We wish to be a source of power for our customers and communities by serving them with sincerity and passion.” With this desire in our hearts, we want to keep moving forward together with our stakeholders, by upholding our mission of “continuing to serve our customers and communities,” which includes the steady and stable supply of power.

As main ESG efforts, our Group is safely and reliably providing power with consideration for the global environment, resolving issues faced by society through new business fields, and building solid foundations to support these activities. Through efforts such as these, in accordance with our Medium-term Management Plan established in 2019, we are not only realizing sustainable growth for our Group, we are also contributing to the sustainable development of society by finding solutions for SDGs and other issues faced by global society.

Resolving issues facing the global environment and society has become an urgent concern, and expectations for businesses from society are also increasing. Furthermore, due to the great increases in ESG investing in recent years, investors have also come to highly evaluate businesses that incorporate environmental and social impacts in their long-term strategies.

In our Group, we will continue enhancing efforts to contribute to sustainable development, proactively sharing information and responding to changes in the business environment and in the expectations and demands of our stakeholders.

◆◆◆ Positioning of ESG Report ◆◆◆

This report brings together all ESG-related information disclosed in our integrated report, on websites, etc., as well as including content with additional details. With reference to the GRI standards and other ESG reporting guidelines, we have organized the content by item—Environment, Social and Governance—to make it easier to browse through the information.

Please also refer to our Integrated Report (scheduled to be issued in November 2020) for details on the Group’s growth strategy and important initiatives related to sustainability.
