

Contributing to the sustainable development of society

Our Group safely and reliably provides energy with consideration for the global environment, resolves issues faced by society through new business fields, and builds solid foundations to support these activities. Through efforts such as these, we will not only realize sustainable growth for our Group, but also contribute to the sustainable development of society by finding solutions for SDGs and other global social issues.

Environment

Understanding the magnitude of the impact that CO₂ has on the global environment, we will continue to contribute to efforts toward decarbonization, including increasing renewable energy generation, utilizing nuclear power generation effectively and making thermal power generation more efficient.

Low carbon

- Keep the top spot for the amount of CO₂-free power generation in Japan.
- Halve CO₂ emissions associated with power generation in Japan in FY2030 (compared to FY2013)
- Renewable energy by the 2030s
 - 6 million kW installed capacity
 - 2 million kW or more new development

Governance

We will continue building solid management foundations that sustain growth.

Information sharing	<ul style="list-style-type: none"> ● Proactive ESG information disclosure ● Promotion of efforts for communication with stakeholders
Corporate governance	<ul style="list-style-type: none"> ● Further strengthening of Board of Directors functionality ● Advancement of innovations in organizational culture
Compliance	<ul style="list-style-type: none"> ● No major violations

SUSTAINABLE DEVELOPMENT GOALS

Social

We will achieve even more sustainable growth by "strengthening resilience to fulfill our unchanging mission, which is safe and stable power supply," "creating new value through diverse ways of thinking and human capital innovation" and "contributing to the resolution of the problems of society through new businesses and other efforts."

Resilience	<ul style="list-style-type: none"> ● Strengthen infrastructure to withstand large-scale disasters and enhancement of coordination with related organizations ● Strengthen cyber security measures
Diversity	<ul style="list-style-type: none"> ● Ratio and number of female managers Increase to more than threefold those of FY2018 by the end of FY2030 ● Female hiring ratio <ul style="list-style-type: none"> • Office staff: 40% or higher • Technical staff: 10% or higher
Community development	<ul style="list-style-type: none"> ● Contribute to invigoration of local communities by sustainable community development ● Contribute to the Yumeshima Development Plan and Expo 2025 Osaka, Kansai, Japan
