

**At the Kansai Electric Power Group,  
we are striving to build an unwavering safety culture by  
realizing our Management Philosophy goal of making safety  
our top priority.**

## Kansai Electric Power Group Safe Action Charter

### Our beliefs about safety

#### Individual commitments (goals)

By making the assurance of safety our top priority in all our activities, we will protect the safety of every person involved in them.

#### Safety consciousness promise

Based on the strong belief held by every individual that "we will not allow misfortune to occur to the colleagues who work with us or their families," we will foster a positive and open atmosphere where people can talk about anything by conducting daily communication that is rooted in consideration. We will also cultivate a culture that prioritizes the assurance of safety by implementing continuous reform.

#### Safety action promise

In order to not only protect our own safety but also that of our colleagues, we will act immediately if we sense danger. Through the practice of this kind of independent safety action, we will seek to eliminate accidents.

### Safe Action Declaration

**I vow to do the following myself in order to both  
maintain my own safety and to preserve the happiness  
of my friends and family.**

#### Always think about what I can do for safety

We will expand the extent of what we individually can do for safety by improving our own technical abilities and sensitivity to danger. In addition, we will always think about what we can do ourselves and make suggestions proactively.

#### Follow rules and procedures

We will carefully confirm and without arbitrary changes faithfully follow rules related to safety, which have been established based on past lessons, as well as preparations and procedures determined from the planning stage in response to anticipated dangers.

#### Act without hesitation to protect colleagues from danger

When we notice a situation that could lead to danger for a colleague, instead of overlooking it, we will caution them or otherwise act without hesitation to prevent the danger.

#### Respond to unplanned situations by stopping and consulting

When confronted with a situation that is different from what was planned or expected beforehand, we will immediately stop without hesitation and consult with others. We will not arbitrarily judge the safety of something and push on or make changes.

#### Communicate actively

The idea that "we will not allow misfortune to occur to the colleagues who work with us or their families" is not a hollow phrase. We will take this to heart deeply and communicate proactively as individuals.
