## Editorial Policies

This report has been edited with reference to various guidelines such as the International Integrated Reporting Council (IIRC) framework, with the aim of helping our stakeholders understand the Group's business activities and medium- to long-term value creation stories.

From fiscal 2020, the title has been changed from the previous "Kansai Electric Power Group Report" to the "Kansai Electric Power Group Integrated Report," in which both financial information and non-financial information are described systematically. We are working to enhance disclosure content in order to convey our efforts to restore the trust of the Group as well as telling the story of medium- to long-term value creation to achieve sustainable growth in a more easily understandable manner.

We hope that this report will help build good relationships between the Group and its stakeholders.
